

SOLAR-WIND-BATTERY PROJECT REVIEW & INSPECTION AGREEMENT

The process outlined below has been developed to ensure we have all the required documentation in order to commission your Photovoltaic, wind electric generating or storage facilities. The Owner or Contractor shall complete and submit the following forms to the District:

- **Truckee Donner PUD Solar-Wind-Battery Application - Signed and completed**
- **Interconnection Agreement for Net Energy Metering - Signed and completed**
- **Solar-Wind-Battery Project Review & Inspection Agreement – Signed and completed**
- **Solar-Wind-Battery Engineering Design**
- **Solar-Wind-Battery Equipment Documentation**
- **Monthly Generation Forecast (if available)**

Electronic copies of the required documentation may be emailed to interconnection@tdpud.org

FEES:

- I agree to pay fee of \$550 as required for all interconnection projects. Interconnection fees cover engineering review and inspection costs.
- Fees may be paid at the new construction counter of our office, a virtual check over the phone or mailed to Truckee Donner PUD, Attn: Solar Agreement, 11570 Donner Pass Rd, Truckee, CA 96160
