

LED ENERGY EFFICIENT LAMPS “LED EE” PURCHASE ADDENDUM # 1

Addendum # 1

This Addendum No. 1 consists of 4 (8 ½ x 11) pages. It is the responsibility of Bidder to assure and guarantee by acknowledging the receipt of this Addendum that the Bidder has received the addendum in its entirety and that the Bidder accepts all conditions contained herein. **Acknowledge this addendum in your bid submittal.**

1. On Pages 12 & 14, “Bid Schedule” and Page 14, “Lamp Specifications”, the following are clarifications to the specifications:

1. Question: For the LED T8 Glass- 4000K 1800 Lumens, would you like that in direct fit or ballast bypass?

Answer: The T8 should be a type A direct fit.

2. Question: T8 usually go under the certification of DLC and not energy star/Title 20/lighting facts. Is DLC okay for the T8?

Answer: DLC is appropriate for the T8's and any labeling/certification you have from them is fine.

3. Question: Is it okay if the light bulbs had one certification only and not all three?

Answer: One certification is sufficient.

4. Question: Is this all or nothing bid?

Answer: Yes, this is all or nothing.

5. Question: Does the Truckee Donner Public Utility District have a purchasing structure or cost guarantee for items that will be impacted by the ongoing tariff negotiations.

Answer: Bids will be evaluated based upon the unit cost, not including tariffs and taxes. Please include whether your products are subject to tariffs in the column provided in Attachment C.

2. On Pages 12 & 14, “Bid Schedule” and Page 14, “Lamp Specifications”, replace Attachments C and D with the following three (3) pages:

Below is a summary of changes to the Specifications:

Attachment C, page 12:

- Changed “Unit Cost (FOB Truckee) Tax Not Included” column to say “Unit Cost not Including Tariffs (FOB Truckee) Tax Not Included”.
- To the LED T8 Glass- 4000k, 1800 Lumens, added “Type A”.

Attachment D, page 14:

- In the General Specifications, added “or DLC” to paragraph 2.
- In the General Specifications, added “and tariffs” to paragraph 11.
- To the LED T8 Glass, Type A- 4000k, 1800 Lumens

LED ENERGY EFFICIENT LAMPS “LED EE” PURCHASE ADDENDUM # 1
